ABOUT OUR SERVICES

DLSUMC
DE LA SALLE UNIVERSITY MEDICAL CENTER

Nurturing your health

The Center uses a multidisciplinary team approach in the care and management of its clients through the integration and coordination of professionals in the fields of Pediatrics, Neurology, Psychiatry, Speech and Language Therapy, Occupational Therapy, Physical Therapy and Special Education.

VISION

The Neurodevelopmental Center is a multidisciplinary component of the De La Salle University Medical Center administered by the Department of Pediatrics. The Center strives to serve children with special needs and those recognized at risk. It shall offer comprehensive and competent interdisciplinary services, training, research and advocacy rendered with compassion and integrity. The ultimate goal is to equip these children with skills to realize their full potential and thus become productive members of the society.

MISSION

The Neurodevelopmental Center of the De La Salle University Medical Center hopes to be the major referral center in the Southern Tagalog Region. It is a holistic center with capabilities for diagnosis, intervention, training and research: a multidisciplinary endeavor which is sustainable, affordable and efficient in the delivery of services to children with special needs. The Center shall offer assessment, intervention, education, transition placement and advocacy programs to enable children with special needs to maximize their potentials in attaining life skills and/or productivity.
